ABOUT ME

FrontendDeveloperwith over 4 years of experience building web applications with Next.js, React, and TypeScript. I enjoy turning ideas and designs into fast, responsive, and user-friendly products.

EDUCATION

Mansoura University | 2019-2022
Bachelor of Computer Science
Graduated with a solid foundation in computer science and engineering, including programming, algorithms, data structures, databases, operating systems, and software development, with a final project focused on building a full-stack web application.

WORK EXPERIENCE

Njadwil.sa | 2025 - Present | Remote, Egypt
Frontend Developer
Built an event booking platform frontend using Next.js. Collaborated with backend (NestJS), mobile (Flutter), and UI/UX designer. Implemented user-facing features, API integration, and optimized performance for reliability and usability.

Upwork (Freelance) | 2022 - 2025 | Remote, Egypt

Frontend Developer
Worked with international clients on web apps using Next.js, React, and TypeScript. Delivered responsive, SEO-optimized, and scalable interfaces while collaborating remotely with backend developers and designers.

Algoriza | 2021 - 2022 | On-site,, Egypt

Frontend Developer Intern
Contributed to web app development using React and Next.js. Focused on implementing interfaces, responsiveness, and performance optimization. Learned frontend architecture best practices under senior developer mentorship.
